- Medical Doctor, preferably with some experience and/or interest in drug treatment, STI, HIV, TB and primary health care;
- 1-2 years working experience with INGOs or LNGOs;
- Fluent in Myanmar and English language, both written and spoken;
- Knowledge of Local language will be given preference;
- Excellent communication and networking (interpersonal) skills;
- Willingness to work with drug users and their families;
- Availability to travel any parts of project area;
- Some understanding of drug and HIV situation in Myanmar/Kachin area;
- Keen interest in contributing to HIV/AIDS responses in Myanmar;
- Ability to drive motorbike well;

Main Responsibilities

Project Site Operations Level Advocacy Tasks

- Advocacy with local level officials (MoHS, DoPH, DoMS...) in consultation with the Project Management Team for smooth medical interventions at project site operation;
- Represent, liaise, create networks, coordinate and advocate with different stakeholders including (INGOs, LNGOs, government departments, drug users and the community in project site operations.

Medical Interventions Tasks

- Providing advice to the CMT on AHRN Health Care Policy matters;
- Responsible for all matters related to AHRN medical interventions (i.e. primary health care, symptomatic drug treatment using harm reduction techniques, family planning services, SRHR activities and other associated issues ...);
- Representing the Health Unit and maintain close working relationships with Drug Treatment Centres, STI-HIV Team, General Hospital and other associated INGOs;
- Ensuring that AHRN and its ongoing project activities are effectively marketed to drug users in project area so that it is perceived as a service that caters to the needs of drug users through consultations and participation of users in intervention design and ongoing project site operations, more specifically to medical interventions;
- Supervise periodical procurement of medical supplies (i.e. necessary drugs and equipment);
- Supervise and represent medical interventions and its team members (i.e. Nurse, Treatment Facilitator...) at all levels on operational matters;
- Identifying medical training needs of Medical team and inform GFP (Health);
- Ensuring mutual coordination between Medical Interventions and the Counselors;
- Developing a mutually agreed network of referrals for general and specialist health care facilities (i.e. Detoxification, STI, TB, ART etc.);
- Providing training to project team members on medical topics (first aid, CPR, overdose etc.)
- Responsible for health check up of project team members;
- Coordinate with Project Manager for IEC materials with the specific objectives for sustainable Behavioural Change among target people;

Anti-Retroviral Therapy

- Ensure AHRN policies and ART guidelines (both AHRN and NAP) are properly followed;
- Ensure all eligible clients to be enrolled in ART program and all those clients have good adherence and compliance on ART treatment and care;
- Provide appropriate clinical care to PLHIV clients in accordance with protocols and guidelines, including diagnosis and treatment of Opportunistic Infections (OIs), Immune Re-constitutive Inflammatory Syndrome (IRIS) and management of drug side effects;

- Monitor day-to-day operations of ART services in collaboration with Project manager at the field level; with Health Director and Program Coordinator (Health Affairs) at central level;
- Establish effective and efficient referral network with NAP or MSF clinic (eg- PMTCT or children living with HIV/AIDS);
- Involve in monthly data collection and reporting of ART services;
- In close collaboration with the counsellors to ensure clients are receiving counselling services, as part of their comprehensive package of care;
- Facilitate and participate in ART selection committee, weekly case meetings and MMT/ART client meetings, and actively provide relevant inputs and necessary support;
- Case presentation on behalf of AHRN in joint case conferences, if necessary;
- Maintain confidentiality of ART clients and keep their files safely at ART centre;
