- Excellent communication and networking (interpersonal) skills;
- Willingness to work with drug users and their families;
- Some understanding of drug and HIV situation in Myanmar;

#### **Main Responsibilities**

##### **Case Management Tasks**

- To assist clients in linking with AHRN and community resources. Coordinate and assist clients in navigating through our AHRN services, and if need be the broader community health (NAP, NTP, DDTRU) care to achieve successful care;

- Work closely with Counsellors and Medical Coordinators to assist clients in assessing clients' health and psychosocial needs and addressing their psycho-social problems which might affect the treatment access, linkage to care and treatment adherence;
- Develop and execute individual client health and social plans through case management (i.e. untreated chronic health and socio-psychological problems, reunion with family, etc.) to support People who use/inject drug, their families and their partners, accessing the health services to maximize health care responses, quality and cost-effective outcomes;
- Facilitate communication and coordination between members of the AHRN clinical case management team, involving the client in the decision-making process in order to minimize fragmentation in the services;
- Monitor the whole cascade of HIV prevention and treatment services and work together with outreach team, medical team and counselling team to ensure the reached clients are tested for HIV, enrolled in HIV care, received ART and got viral load suppressed;
- Assist clients in (sexual and/or injecting) partner notification for HIV testing services;
- Develop and maintain individual case files for clients and document it in a monitoring and evaluation framework;
- Make direct contacts with the PWID/PWUD, their families and their partners at the designated project;
- Educating the client about treatment options, community resources, psycho-social concerns, case management, etc., so that timely and informed decisions can be made;
- Assign Treatment Facilitators for home follow up visits, index case finding for both TB and HIV, referral linkage and adherence support;
- Monitor and supervise the regular follow up, ARV and TB pills counts and index case finding done by TF;
- For effective implementation of the harm reduction social development plan, Case Management Officer will be responsible for conducting appropriate thematic harm reduction health/peer education sessions aiming at sustainable behaviour change among clients;
- Responsible for liaison work to support effective referrals of individual cases;
- Perform HIV testing services (Counselling and HIV testing) if necessary;

### **Networking and Documentation Tasks**

- Coordinate inter AHRN referral mechanism between project sites: clients are provided patient card and projects sites communicate transfer by phone;
- Provision of medication/methadone to health department holding cells and prison (in close communication NTP/NAP/TMO);
- Facilitate Clinical Case discussion meetings with partners such as MSF-OCA, NAP, NTP on the transfer in/out of clients between agencies;
- In implementation of project activities Case Management Officer will assist various tasks like arranging/compiling relevant data, data analysis and periodical reports etc.;
- In consultation with the Project Team Case Management Officer will liaise, create networks, and coordinate for effective referrals with (I)NGOs, local NGOs, government departments, (injecting) drug users, and their community;

- Responsible for documentation of Case Management activities of each project related activities and reporting directly to the Medical Coordinator;
